## PROFILE

I am a passionate and dedicated Data Science and Artificial Intelligence (DSAI) student at the Asian Institute of Technology (AIT), Thailand. With a strong foundation in computer science and hands-on experience in machine learning, computer vision, and natural language processing, I thrive on solving real-world problems through data-driven solutions. I have worked on diverse projects, including customer churn prediction, NLP-based machine translation, and low-light image classification. My goal is to leverage my analytical skills and technical expertise to contribute to innovative AI solutions and make a meaningful impact in the field of data science.
